Duct cloth DUC 100

TECHNICAL DATA SHEET

ALL ABOUT TAPES

DESCRIPTION:

Hot melt based synthetic rubber tape.
Carrier LDPE (Low density polyethylene) cloth tape.

APPLICATIONS:

- Very high grammage, ensures an extreme initial tack.
- Suitable for all emergency" situations, from water hose leak stop to mending a minor car accident on the spot.
- Can be used for manual carton sealing
- Adhesion on uneven surfaces due to excellent adhesive initial power

PROPERTIES:

- Increased initial tack
- Moisture compatible after application
- Instant adhesion
- Resistant to temperature changes
- Longevity of application

NOMINAL VALUES:

Backing

Linear Density Polyethylene LDPE film laminated with cloth

Adhesive

Hot Melt synthetic rubber (Solvent-free)

Tensile Strength MD

90 ± 15 (N/25mm)

TM 5004 by Afera

Elongation at Break MD

over 18%

TM 5004 by Afera

Adhesion to Steel

over 14 ± 2 (N/25mm)

TM 5001 by Afera

Carrier Colors Silver-grey White Black

Adhesive Color White

Effective: September 2016
